WORK EXPERIENCE

UX/UI Designer

The Gioi Di Dong (MWG) - TGDD, DMX, TopZone

2026 – now

- Designed end-to-end user experiences for responsive e-commerce Web and Mobile, from business requirements and user flows to high-fidelity UI and interactive prototypes.
- Collaborated with Product, BA, Engineering, Sales, Promotion, Content and SEO teams to define requirements, validate feasibility and support implementation.
- Analyzed GA4 and Crazy Egg data to identify discovery and conversion issues across product journeys.
- Redesigned the SIM discovery experience, increasing heatmap engagement by 15% and reducing bounce rate by 10%.
- Built and maintained reusable components for the TGDD/DMX Design System, improving consistency and accelerating design-to-development review.
- Used Claude, Codex, GitHub, Vercel and Storybook to create functional prototypes, reducing review preparation from 3 days to 1 day.
- Conducted design QA and UAT to ensure implemented interfaces matched specifications across responsive breakpoints.

UI/UX Designer

Softworld Vietnam Ltd

2025 - 2026

- Translated business requirements into information architecture, user flows, wireframes and high-fidelity interfaces for Web, Mobile, touchscreen and internal platforms.
- Designed operational dashboards, CRM/CMS, loyalty and booking experiences involving multiple user roles and permission-based workflows.
- Conducted user research, persona development, journey mapping and competitive analysis to identify user needs and product opportunities.
- Built scalable component libraries and responsive UI patterns to maintain consistency across products.
- Worked closely with BA, Developers and QA teams to review feasibility, clarify interaction behavior and resolve implementation issues.
- Participated in client meetings, design reviews and post-development UI audits across local and remote teams.

UI/UX Designer

LIVEN Technology (VDES, Yourweddingplanner, Unlock, Marry)

2023 - 2025

- Designed web dashboards to support consistent UI development across apps.
- Collaborated with the Marketing team to create creative, impactful content for social media, landing pages, & event campaigns.
- Delivered branding assets including internal banners, logo systems for brand chains, and executive name cards.
- Designed CRM interfaces to optimize internal operations and improve workflow efficiency for businesses.
- Participated in product development by designing UI/UX for web and mobile apps, especially in tech-related platforms.
- Applied responsive design techniques and accessibility best practices to create inclusive user experiences.

Visual Designer

LIVEN Technology (VDES, Yourweddingplanner, Unlock, Marry)

2021 - 2025

- Created promotional banners with layout and color schemes tailored to campaign messages
- Delivered clean and consistent with brand identity visuals for multiple industries including F&B, Fashion, Wellness, Healthcare, Hospitality & Resort...
